

2007-2008 Hockey Season Has Begun

Hello Jr. Eagles Members!

Welcome to the 2007-2008 hockey season. We are excited to work with many new and returning players. We are confident that every player will improve their game and individual hockey skills through strategic practice plans and game scheduling.

To prepare for games, at the start of the season we will be having several skills sessions with many players and coaches on the ice to maximize ice time. These sessions will consist of overall skills as well as practices focusing on specific skills and or positions.

We will also have dry-land practice to improve strength, quickness and flexibility to have an edge on competition and avoid injury.

This season you will see lots of new faces on the ice and behind the bench. We have expanded our coaching staff to better develop our players. We spent the summer interviewing prospective coaches, looking for those that best fit the criteria of our association. We pride ourselves in continuing to find the best coaches so we can continue our policy of no parent coaches over the squirt level. Our new additions have upper level hockey experience from Junior A to College, including two Division I national champions. The Jr. Eagles staff now has new resources that include position specific coaches, power skating, nutrition and sports physiology.

We are very excited to once again have teams at every age level. With the continuous growth we have had over the past seasons we will continue to offer teams for all ages and abilities. The strength of our program is in our players, they have improved great lengths every season and will continue to improve with the support of the parents and our continuing practice schedule. We feel that AA teams are in the future for our program. It is our goal to help players improve to have the skills needed to play at that level.

Regardless of the level, we are dedicated to give our players the best hockey experience to help them be successful in the future.

We look forward to a successful season for our players. Thank you for your support and loyalty to help the growth and improvement of the Colorado Jr. Eagles Hockey for seasons to come!

Sincerely,

George Wolff,

Director of Hockey,

Colorado Jr. Eagles
